

## AVIATION FINANCE

### OVERVIEW

The Global Aviation Finance Team advise on a broad range of transactions, including the following:

**Leasing** – operating and finance lease arrangements for both new and used aircraft. We have also advised on a large variety of structured sale and lease back transactions as well as a significant number of JOLCOs AND French Tax Leases.

**Financing** - all types of financing arrangements including full, limited and non-recourse commercial debt, asset backed securitisations, export credit backed facilities and supported debt. We have particular experience advising on complex aircraft portfolio financing facilities.

**Purchase and disposal** - aircraft and engine sale and purchase transactions with significant experience in large portfolio trading transactions and managing time sensitive and high volume lease novations.

**Engine Leasing and Financing** – advising both leasing companies and lessees on a variety of engine leasing, warranties, financing, trading and maintenance support transactions. BCLP has substantial experience in leasing and financing engines in a number of jurisdictions; Ireland, United Kingdom, France, US, Hungary, Indonesia, Saudi Arabia, UAE, France.

### **Engine Leasing, the Fundamentals - Sanctions and Key Conclusions**

In the previous articles in our series Engine Leasing, the Fundamentals, BCLP's global aviation team has discussed the attraction of engine leasing and the key economic drivers. It has discussed the legal risks associated with engine leasing and the mitigating impact that the Cape Town Convention (CTC) has had on those risks. The team has also considered what additional steps and protections can be implemented in order to mitigate the risks associated with engine leasing and financing. In this, the final article of our series, the global

aviation finance team provides an overview of the sanctions issues affecting engine financiers and lessors and draws together the key conclusions in our series “Engine Leasing and Financing, the Fundamentals”.
